

DSCSA TRACKER ESSENTIALS: KEY FEATURES FOR COMPLIANCE SUCCESS

WEBINAR

TUESDAY, AUGUST 27 | 10:00AM CST

EPCIS Data and Serialized Barcodes

- Starting November 27th, Manufacturers will be required to produce an EPCIS file that corresponds to each package they create. Each package will also have a 2D barcode that represents the serial number.
- Each time that package changes ownership (sold to wholesaler, dispenser, etc.) the file will also need to be exchanged.
- Cervery will automatically receive the EPCIS files for each package that is received by a dispenser. These files will be available on the new EPCIS History page.

DQSA EPCIS History

Verifying EPCIS Data

- To verify receipt of EPCIS data, users can view files on the EPCIS history page or scan the 2D barcode on each package that is received (recommended method).
- Scanning a barcode on the Verification page will display the details of that product from the EPCIS file.
- Dispensers should verify that they have received an EPCIS file for the products received and verify the accuracy of the data from the file.

Managing GLNs

- Dispensers with multiple accounts and GLNs can manage which accounts are under each GLN using the new EPCIS GLN tab on the Business Partner Admin page
- Cervery will load the dispenser's GLNs that have been provided and associate them to the existing account numbers. Any additional GLNs can be added and maintained at any time.

- Click the gold text in the center of your screen to go to Cervey's Resource Hub.

The background is a solid yellow color. It is decorated with numerous white circles of various sizes, scattered across the left and center portions of the slide, creating a bubbly or polka-dot effect.

Questions?

A woman with curly hair, wearing a white lab coat over a light blue shirt, is in a pharmacy. She is holding a tablet in her left hand and reaching up with her right hand to a shelf filled with various boxes of medicine. In the background, another person in a white lab coat is partially visible, also working at a shelf. The scene is dimly lit, with the primary light source coming from the shelves, creating a professional and focused atmosphere.
